

NIT Silchar – Training & Placement Cell

Final HR Calling Script (Professional Conversation Format)

Phase 1 – Introduction

You: Good morning/afternoon, Ma'am/Sir. May I speak with Mr./Ms. [HR Name], please?

You: Hello Ma'am/Sir. I'm [Your Name] from the Training and Placement Cell, National Institute of Technology Silchar.

You: We're reaching out regarding our 2027 campus placement season and 2028 summer internship hiring to explore recruitment opportunities with [Company Name].

Phase 2 – Institute Pitch

You: NIT Silchar has a strong talent pool across Engineering, Science, and Management. Our students have strong academics, project experience, coding exposure, internships, research experience, and excellent problem-solving skills.

You: We'd be delighted to invite [Company Name] to participate in our placement and internship drives this season.

Phase 3 – Hiring Discovery

You: May I know if your company is planning to hire fresh graduates from the 2027 batch or summer interns from the 2028 batch?

HR: Yes, we are hiring.

You: Great. May I know which roles you're hiring for, eligible branches, required skills, recruitment timeline, CTC or stipend, hiring process, and expected joining timeline?

If HR Doesn't Handle Hiring

HR: I'm not the right person for recruitment.

You: No problem, Ma'am/Sir. Could you please connect me with the person who handles campus recruitment? If that's not possible, may I have their name and official HR email ID?

If HR Says They're Not Hiring

HR: We're not hiring right now.

You: I understand. Do you usually hire freshers later in the year or have upcoming hiring plans? I'd be happy to share our placement brochure and institute details. May I also know a suitable time for a follow-up call?

If HR Says 'Send Me an Email'

HR: Please send me an email.

You: Certainly. Could you please share your official HR email ID? Also, may I know which roles or branches you're primarily hiring for so I can send the most relevant information?

If HR Asks About Internship Availability

HR: When are your students available for internships?

You: The 2027 batch is available for 6-month semester internships starting in January, and the 2028 batch is available for 8–10 week summer internships during May to July.

If HR Wants Only CS/IT Students

HR: We're hiring only CS/IT students.

You: I completely understand. I'd request you to also consider students from Electrical, Electronics & Communication, Electronics & Instrumentation, and other circuitual branches. Our students have strong DSA, coding, hackathon, and software project experience. Opening the assessment to circuitual branches gives you access to a larger technical talent pool while maintaining the same selection standards.

If HR Asks Where You Got Their Contact

HR: Where did you get my contact number?

You: Our Training and Placement Cell at NIT Silchar maintains an official database of companies and recruitment contacts for campus outreach. We use this database only for placement and internship communication and to build recruitment collaborations with organizations.

If HR Asks About NIT Silchar

HR: Tell me about NIT Silchar.

You: We have six B.Tech branches: Computer Science, Electronics & Communication, Electrical, Electronics & Instrumentation, Mechanical, and Civil Engineering. The exact number of eligible students depends on your hiring criteria, and I'll share the branch-wise details and our latest official placement report over email.

If HR Asks Which Companies Have Visited This Season

HR: Which companies have already come to your campus this season?

You: This placement season, we've already seen participation from leading multinational companies including Microsoft, Uber, and Goldman Sachs.

You: We're now expanding our outreach across different sectors and hiring ranges. [Company Name] would be among the first organizations in your company's hiring segment and range that we're approaching this season through our focused outreach initiative.

If HR Asks About Places to Visit Near NIT Silchar

HR: If we visit your campus, what places can we visit nearby?

You: NIT Silchar is located in the scenic Barak Valley of Assam. Right behind our campus is a beautiful tea garden, one of the highlights for visitors.

You: Nearby attractions include Dolu Lake, khaspur Rajbari, Maniharan Tunnel & Temple, Badarpur Fort, and Jatinga.

You: If you're travelling by flight, visitors usually connect through Guwahati or Kolkata before reaching Silchar. During a layover in Guwahati, you can visit the famous Kamakhya Temple. If you're connecting through Kolkata, you can explore Victoria Memorial, Howrah Bridge, Dakshineswar Kali Temple, and enjoy Kolkata's food and cultural heritage if time permits.

Professional Closing

You: Thank you very much for your valuable time, Ma'am/Sir.

You: We'll share our Placement Brochure, Job Notification Form (JNF), and Internship Notification Form (INF) on your official email shortly.

You: We sincerely look forward to collaborating with [Company Name] during this placement season. Have a wonderful day ahead. Thank you!
